What I hope to achieve

It is my desire to find work with an accomplished group who can both nurture and inspire my creative skillset. I know that working with a team of talented and experienced designers will give me better control and a deeper insight of what is required to be successful within this industry. I would love the chance to apply my knowledge and gain perspective as a digital designer.

Some of the things I exceed at

- Providing attention to detail.
- Working under pressure.
- Quick thinking and use of initiative.
- Time and project management.
- Problem solving.
- Working as a team and independently.
- Learning new skills.
- Working professionally with respect.
- Commitment and dedication.
- Using a variety of software packages.
- Using Windows and Macintosh PC's
- Typing and data entry (85 WPM).

My design & technical capabilities

- Strong grasp of design theory and fundamentals.
- Perceptive understanding of user experience and interaction design.
- Understanding and following design a process.
- Storyboarding, sketching, wireframing and prototyping skills.
- Experience working with external clients and following briefs/guidelines.
- Astute of social media and online marketing.
- Copy writing skills.
- Cross-browser compatible and compliant XHTML and CSS coding.
- Basic understanding, integration and modification of JQuery library.
- Creating and editing simple PHP functions and MySQL databases.
- Sound AS2 and AS3 development skills.
- Working with CMS software, including Wordpress and Drupal.

My Educational background

Adv. Diploma of Multimedia

Tea Tree Gully Institute of Tafe, 2009.

Cert. IV of Multimedia

Tea Tree Gully Institute of Tafe, 2007.

Completion of Year 12

Gawler High School, 2002.
